COUNTY LUMBER SEASON OPENS

General Business Conditions Makes Probable Amount Of Cut For Year Uncertain

Approximately 1500 workers in the lumbering industry of the county are going back to work this week and, barring bad weather, principal mills will resume operation on Monday.

The total cut last year in the county was one hundred five million board feet. Reduced to other terms, the county lumbering industry cut enough lumber to build fifteen thousand five-room houses at 7,000 feet per house.

This year's probable total cut is uncertain, owing to general business conditions. If things "pick up," the cut will probably approach the total for last season.

Heavy snows have made the mills a week or two later in getting started than in other years, but if good weather continues through the week, the larger mills will be started Monday.

Crews have been at Pino Grande for about ten days and report that the south slopes are open but that snow to (Turn to page four)

Blair's P.T. A. Maps Supper

Interesting Meeting Held At School Friday Despite Unfavorable Weather

The Blair's District Parent-Teacher Association is making plans for a picnic supper to mark the last day of school. Preparations for the affair were begun at the meeting of the association at the schoolhouse on Friday evening, April 29, at which, despite the rain which continued into the week-end, there was a good attendance.

The vice-president, Mrs. E. McFarland, called the meeting to order in the absence of Mrs. Ralph LeVitt, who is seriously ill at her home in the Five-Mile Terrace. Routine business was transacted and reports read.

The following chairmen were named for standing committees: Hospitality, Mrs. Emily MacFarland; Membership, Mrs. Frank Noyes; Program, Mrs. John Wilson; Publication, Mrs. Charles Hennings; Finance and budget, Mrs. Bob Williams and Publicity, Mrs. Ralph LeVitt.

The supper will be a "pot luck" affair on the last day of school and will be held under the trees, weather permitting. Mrs. Art Serene and Mrs. Frank Noyes were named to plan the menu. Miss Muriel Hermie the entertainment and Mrs. Carl Visman on general arrangement. The date and other details will be announced later.

After the regular business, several entertainment numbers were presented. The Campfire Girls, directed by Miss Hermie, gave a playlet setting forth the benefits to be gained from Campfire group participation. Several musical numbers were given by the pupils.

Harry Reese, principal of Pollock Pines school and guest speaker, discussed "Rural Education of Today." His remarks regarding his early memories of Blair's district and the schoolhouse which he, as a boy, helped his father to build, were particularly interesting.

Of special interest in the school exhibit was a mounted collection of leaves and plants gathered by the pupils on the school grounds and in the vicinity.

A social hour and community sing followed by refreshments ended a very enjoyable evening.

ODD FELLOWS, REBEKAHS MEET MAY 10 AT SAN JOSE

The lodges of Odd Fellows and Rebekahs in El Dorado County will be represented at the meeting of the Grand Lodge and the Grand Assembly, which meet at San Jose on May 10.

Among those who have been named by the various lodges as delegates are Mrs. W. P. Truscott, Glenn Carter, Mrs. Metcalfe, Mr. and Mrs. Zanini, Harvey Lyon, Mr. and Mrs. Emmett McGrath, Grace Vennewitz and Mrs. Emma Pierroz.

Charles H. MacLaughlin was in town Thursday from Somerset.

"WE'RE ON THE SPOT"—Henry Ford, gray-haired automobile manufacturer, gave a two-sentence address, at the publishers' dinner in New York. He said: "We are all on the spot. Stick to your guns and I will help you, with the assistance of my son, all I can." He is shown, left with Dist. Atty. Thos. E. Dewey, former Michigan, who also spoke.

FOLSOM WARDEN ASKS NEW GUN TOWER AS PROTECTION FOR CELL BLOCK GUARDS

Plummer, Former L. A. Police Captain, Convinced His Policies Are Producing Results After Six-Month Trial; Hopes To Acquire New Target Range

FOLSOM PRISON. (P) — Warden Clyde L. Plummer, who came up from the Los Angeles police department to head this prison celebrated for its "tough guys," perfected plans today for further safeguards.

The warden said he had a two-fold objective: "To make this jail as tough as possible to beat and to furnish his men every protection."

Newest features destined to make Folsom even harder to escape from will be a gun tower and catwalk in cell block 1. The walk will run in two different directions from the tower and will command view of the prison's "back alley," where recalcitrant and incorrigible convicts are housed.

More than 400 prisoners are celled in block 1, oldest unit in the prison.

"The tower is planned to provide more protection in this block, particularly at lockup times," Plummer explained.

"When you get almost 500 men against five guards it does not mean much. But if you have a man overhead with an automatic rifle, and in a position to see all parts of the cell block, that is a different story."

Unimpressed by criticism of his many reforms since assuming his

duties six months ago, the one-time police captain revealed ideas for further changes.

He is convinced his idea of "treating these men as though they were human beings" is getting results. And he is willing to submit the records to prove the point.

Should the prison board reject his proposal to equip cells with radio earphones, which could be done with the prisoners' funds, he said he may ask for moving pictures.

These would be shown during rainy and foggy days when the men are not allowed out of doors. The warden believes film would serve the same purpose they do in other institutions: "Let the men blow off steam."

He also is attempting to set up an arrangement with the California National Guard whereby a target range for the guard and for the prison guards would be constructed adjacent to prison property.

Rifle and pistol experts of the guard would instruct the prison personnel in the use of firearms.

The warden said he believed prison morale is high, among both guards and inmates.

In addition it was decided the Post will attend Memorial service on Sunday, May 29, at the Federated church, at which time a special Memorial Day program will be given.

RESCUE INVITES ENTIRE COUNTY

Annual Mothers' Day Picnic To Be Held Sunday At Litten-MacDonald Grove

Rescue again invites the county to the Mothers' Day Picnic—the eighth annual event—which will be held Sunday, May 8, at the Litten-MacDonald grove.

The affair is sponsored jointly each year by the Grange and the Farm Bureau of the district as a community event. This year the 4-H Club members are assisting.

The road to the picnic grounds is usually well marked and presumably will be marked this year. Those who have not attended previous Mothers' Day picnics will be directed to the grounds if they proceed to the junction where the road from Shingle Springs joins the Green Valley road. Then drive west on the Green Valley road and signs will point the turn-off to the picnic grounds, which adjoins the residence of Miss Stella Litten and Mrs. Julia MacDonald.

Mothers' Day exercises have been planned to begin at 10:30 o'clock in the morning with the thought in mind that (Turn to page four)

MARKHAM'S SCHOOL BOOK PRESENTED TO STATE NORMAL COLLEGE

Miss Margaret A. Kelly, of Kelsey, has recently received from the San Jose State Teachers' College a letter acknowledging receipt of an English textbook used by Charles Edwin Markham in his student days at the school in 1870.

In presenting the book, which bears Markham's own signature on the frontispiece, Miss Kelly sent it to John W. Stirling, at Berkeley, asking that it be given to the normal school listing himself and Miss Kelly's cousin, Jennie McCarthy Donahue, a San Jose graduate of '84, as donors.

Miss Kelly knew Markham as a pupil when he was a teacher, and later was a teacher herself when Mr. Markham was County Superintendent of Schools. She reports she has Markham's signature and other writings in her own autograph album as well as in the albums of her sister and her brother, and also has three of his library books which bear his bookplate.

The textbook given to the Normal School is "Exercises on Words," a text on grammar and rhetoric, written by William Russell, editor of the American Journal of Education, and published at Boston in 1856.

NATIONAL GUARD COMPANY ASKED

Application Made To State On Thursday For Company; 57 Men Sign Roster

Application was made to the Adjutant General's office on Thursday by L. L. Anderson, chairman of the Chamber of Commerce committee in charge, for the establishment of a company of the National Guard in Placerville.

The application went forward following the report of D. J. Bathurst and Bill Carman that a total of 57 men have signed the roster as prospective members of the new company.

The matter of the establishment of a National Guard company in Placerville was given the endorsement of the Chamber of Commerce at its January meeting, at which Captain Irvin Pool, of the company at Auburn, was present and explained the manner of organization.

At that time a committee was named with Anderson as chairman, to co-operate with Bathurst and Carman in advancing the plan. It is believed that the total of 57 prospective members will be a sufficient number to warrant establishment of the company, provided other considerations are acceptable to the Adjutant General's office. If additional men are needed for the roster, those in charge report they can be enrolled without material delay.

TEACHERS' PAY PLAN SKETCHED

Superintendent Favors Check Each Month Of Year, He Informs District Clerks

In a recent letter to the clerks of school boards of the county, School Superintendent E. J. Fitzgerald suggests that the districts adopt what is known as the "ten payment deferred plan" for paying the salaries of teachers.

The letter explains the plan as follows: "A minimum annual full-time teacher's salary of \$1320.00 has been enacted. A district may pay a teacher a higher salary if it has sufficient funds but not a lower salary. The law provides five different methods of payment, but for our winter schools the ten-payment deferred plan is the best and most advantageous and it is desired that the districts adopt this plan. It is as follows:

"As an example we will illustrate with the minimum annual salary of \$1320, although other amounts work out equally as well. In ten monthly payments, each payment would be \$132. (Continued on page 4)

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

LOUISVILLE, Ky., (UP)—As a member of the human race I have always staunchly maintained that human beings are better looking than horses.

Since coming to Louisville Kentucky Derby, however, my belief in this theory has been shaken. Is it possible that horses are more pleasing to the eye than men, women or children? I can only give you the facts which would substantiate this view.

In the past week the owners and trainers of the derby horses have been forced to build fences and screens about the stables to prevent the horses from having to look at human beings. At first people were allowed to surround these famous horses and spend hours exchanging looks with them.

The people went away feeling quite all right. Looking at the horses didn't bother them. But not so the horses. The horses after a few hours of gazing at human beings were unable to eat or sleep.

Stagehand was badly upset. So was Bull Lea and Lawrin. As soon as the screens were put up, and they had only to look at the pleasing facial contours of other horses, their appetites returned and they slept like logs.

The more I think about it, the more I can understand how the horses felt. When a horse looks at another horse he isn't in danger of seeing long beards, bald heads, bifocal horn-rimmed glasses, ear trumpets, or the latest and maddest in women's hats. Neither does he have to put up with an evil smelling pipe or cigar, red finger nails, or freckles ill-conceived by smears of powder and paint.

Seriously, the fact that horses have had to look at human beings en masse for several hours at a stretch, may influence the outcome of the derby on Saturday. I am not exaggerating when I say that Stagehand's disappointing race in the derby trial the other day might have been caused by the sight-seers who swamped his stables when he first arrived at Churchill Downs.

For days, Stagehand had to look at them. They came in limosines and on bicycles. They poked cameras in his face. They did everything but ask him for an autograph. He was on the verge of a nervous breakdown when it suddenly dawned on somebody that perhaps horses didn't like to look at human beings as much as human beings liked to look at horses.

With the people gone, and the horses back to normal, the 1938 derby is shaping up as the toughest race in years. It really is a "handicapper's horror," meaning there are so many top-notch colts that to name a winner calls for more courage than the committing of hari-kahi with a butter knife.

Royal apricots were damaged by the late frosts in Kings County.

I polled dozens of horsemen the other day—horsemen who really know something about racing critters and got more different answers than that celebrated jumper, the circus pony, could clear in three tries.

One liked Dauber because he could stay. Another went for Nenow because he had early foot. This one couldn't see anything but Fighting Fox in a breeze, while that one said the Chief would breeze from barrier to pay-off line. I even got votes for Can't Wait, Redbreast and something called Eloopa.

I added all the answers shook them well, and wound up with the tastiest little bit of confusion that ever filed a man's head. Added to my own natural and native confusion this left me in a fine state indeed.

WOMAN, SON FACE TRIAL IN SOLUTION OF MURDER IN '29

WALLA WALLA, (UP)—The state today prepared to prosecute a 73-year-old woman and her son, both inmates of state prison, for the slaying 10 years ago of a young naval officer, although the alleged victim's dismembered body has not been found.

Prosecutor B. Gray Warner of King county said it was not necessary to find parts of the body of James Eugene Bassett, 35, whom Mrs. Mary Eleanor Smith claimed was killed in September, 1928, by her son, DeCastro Earl Mayer, 42. Warner said the corpus delicti could be established by circumstantial evidence.

The crime had gained nationwide attention because of the strenuous efforts of authorities to prosecute Mrs. Smith and Mayer after they were apprehended in Oakland, Calif., with Bassett's automobile and personal effects. Heretofore, authorities declined to prosecute the pair on the murder charge because they could not find the body.

Warden McCauley and other officers finally "broke" the case after intercepting a letter written by Mrs. Smith to someone outside the penitentiary walls, whom she supposed had found parts of Bassett's body. The letter, written illiterately, told all details of the crime that the woman could remember.

Gems Pawned To Bet On Races, Charged

NEW YORK, (UP)—Lillian Schrein, 35, accused of swindling her uncle, Martin Beck, theatrical producer, of \$300,000, was arrested again yesterday on a new charge involving the theft of \$14,275 worth of jewelry.

Mrs. Helen Beck Leighton of North Hollywood, Calif., daughter of Beck, charged that Miss Schrein pawned the jewelry for \$2000 after it had been entrusted to her care. Miss Schrein allegedly lost the money betting on the horse races.

Pope Deplores Display Of Nazi Swastika

CASTELGANDOLFO, (UP)—The Pope, in an address to 500 newly married couples today deplored the appearance of the swastika flag in Rome during the visit of Fuehrer Adolf Hitler.

The swastikas, he said, "certainly are not Christ's cross."

SEPTUPLETS BORN DEAD TO CUBAN MOTHER OF EIGHT CHILDREN

By GUSTAVE CROMBET

United Press Staff Correspondent. CAUTO, EMBARCADERO, Cuba (Copyright 1938 by United Press) — Seven dead babies were born to Mrs. Rafaela Casanova Corrias on a lonely farm 10 miles from here Sunday and are buried in a simple grave which Juan Corrias, the father, dug in the front yard before the thatched farm house.

A midwife, Candelaria Arauz, attended the 34 year old mother in her 10 hour ordeal as eight living children of the family, the youngest a boy of eight months, played or slept about the house.

New of the birth became known when the father went to Bayamo, 16 miles away, yesterday to get a doctor because his wife was ill.

With the speed that attends rumor, the story spread from end to end of Cuba and it was reported persistently but erroneously that the babies were alive.

Mrs. C. C. Harrison is here from Salt Lake visiting her daughter, Mrs. Lester Longhurst, and family.

BLUE JAY DRIVE OPENS UNDER ROD AND GUN CLUB AUSPICES

The "season" is open on blue jays and the El Dorado Rod and Gun Club, in co-operation with the Placerville Fruit Growers' Association, will reward participants in the drive at the rate of five cents per head.

This is according to announcement Wednesday by County Horticultural Commissioner J. A. Winkelman, who said that heads of birds may be turned in at the Sportsman's Shop or at Murray's store.

Probably, Winkelman said, some prizes will be offered for the greatest number of birds killed.

"We want only the lowland blue jays," Winkelman advised. "These may be distinguished from the mountain jays because the mountain jays have a top-knot, while the lowland birds do not."

Winkelman said that in the last "drive," made three or four years ago, a total of 4,700 birds was killed.

C. B. Comstock, who for several weeks has been under hospital treatment at Sacramento, is now able to be up and about. Mr. Comstock's hospitalization resulted from a leg infection attributed to a type of arthritis.

COUNTY LUMBER SEASON OPENS

(Continued from page one)

A depth of two, three and four feet, is to be found on the north slopes. Felling was started early this week and logging was to be started Thursday. The Michigan California Lumber Company plans to start its mill Monday, barring bad weather.

The management of the company reports it has a full crew of veteran employees and no new men are being hired.

The California Door Company has had its crew in the woods for about ten days and, barring bad weather, will start its mill Monday. The company states that its crew is complete and no new men are being employed.

Sacramento Box Company, operating at China Flat, started its mill on Saturday. This firm, too, has its regular crew at work again, numbering about 100 men.

The Placerville Lumber Company opened their mill at Fresh Pond on Wednesday and report all of the lumber they will cut this season, between 14 million and 15 million feet, is contracted for. Sixty men are now employed and this, it is expected, will be increased to eighty. A payroll for the season of about \$100,000 is anticipated.

Several improvements were made at the mill during the winter. A nine foot band, trimmer and several electric motors were installed making the plant an almost complete all-electric mill. Two more trucks with dual axle dollies and another A-C model LD tractor were added to the logging equipment to handle the increased cut of the mill.

H. E. West, C. T. Ross and M. L. Cramer are partners in the company, which started last year.

Principal members of the crew include George Williamson, sawyer; C. C. Walker, Jr., filer; O. E. Jacobs, setter; W. Mann, edgerman; Art Mahan, truck mechanic; Bob Campbell, head grader; Frank Blank, head piler; Roy Radon, yard foreman; Curley Barker, cat and arch driver; Joe Gomes, loader; Ed All, Ed Stevens and Fred Shumberg contract the felling; Les Read is millwright; Harold Hoig, welder and mechanic, and Tom Hawkins is in charge of the office.

Blair Brothers will start their mill about May 15, it is reported, and preparations are being made for resuming work by Phippens mill, Bradbury & Tuman and C. G. Celio and Sons, in addition to a number of smaller operators.

Late snows are delaying an early start on the season's cut. The early resumption of lumber buying, not only for building but for industrial use, will go far to spur the industry in this country to the peak of the season activity.

Teachers' Pay Plan Outlined

(Continued from page 1)

The law provides that 16 and 2-3 per cent or 1-6th which is \$22 may be deferred each month, thereby leaving a payment to the teacher of \$110 monthly. This \$22 deferred payment in the ten payments will amount to \$220 or two of the teacher's monthly payments, which would be paid to them in the month of July and August, thereby giving the teacher twelve payments each year of \$110 each, which just makes the amount of the annual salary of \$1320.

"The payments are to be made on the last day of each month beginning on September 30, 1938 and continuing on the last day of each month as long as the teacher is employed. Should the teacher at any time cease to be an employee of the district, the amount of the deferred payments are to be given her at once. During the school year, beginning with September, \$2.40 would be deducted from each of the ten salary payments, leaving \$107.60 as the net monthly payment. However, during the next school year beginning with the July 31st payment, but \$2 would be deducted as the teacher would receive twelve payments of \$108 each net.

"The advantages of this plan are that the money will always be on hand, no registered warrants. Teachers will receive twelve monthly payments each year. At no time will the teachers have received more money than is coming to them.

"If there is any question in your mind concerning this method of payment, come in and talk it over with the superintendent."
